To whom it may concern

Petrochem Group owns and operates 18 **Caltex Stations** In New Zealand. We have ATM machines at all our sites, mainly through our association with **Wibo Bosma** over the years.

We have found Wibo to be very professional in his dealings, and we are very comfortable dealing with him, his approach, his knowledge and expertise in the industry.

We now have used **NEXT Payments** as our preferred supplier, and are very pleased with the performance of the ATM machine at our new site at **Caltex Oteha Valley and at Caltex Hyderabad, Napier**. We find the financial reporting easy to follow, and all queries have been handled on a timely manner.

From the quality of the hardware itself. the speed of transactions, the reporting and personal account management levels right through to response times , we are pleased to recommend **NEXT Payments** as your ATM equipment and service provider.

Regards

Dipak Bagia
