## A Secure Full-Service Solution

The Next Payments CashIO Gold is a full-service unit, managing jackpot payouts, breaking bank notes and providing ticket and card redemption to your patrons.

In addition, the unit monitors and certifies all transactions, maintains an audit trail, protects cash in a secure safe, and is supported supported by the Next Payments 24/7 local support team, ensuring total ensuring total reliability and timely assistance.

## Remote Monitoring

The CashIO Gold comes with complimentary access to CountR's intelligent monitoring system, ART™. ART™ tracks every transaction processed, allowing for a proactive approach to preventative maintenance, such as the identification of faults and clarity over cash levels.

Plus, the CashIO Gold integrates seamlessly with our Concilio software, which provides timely notifications to your email and app when the unit is low on cash or experiencing any faults.

### Marketing Opportunity

## Promote Your Venue

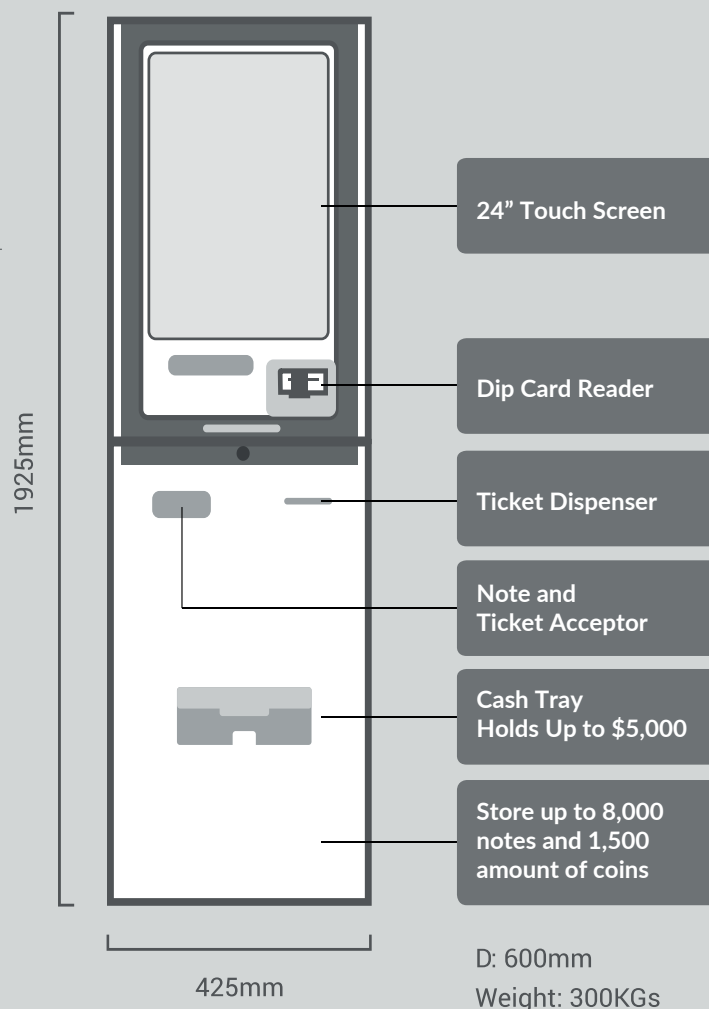

### Full Screen Advertisements

Take advantage of the large 24" screen monitor to display advertising and drive sales when the machine is idle. You can push one message or have multiple advertisements rotating.

\*Not approved in all jurisdictions, please ask our Sales Representatives for more information.
